

COUNTER REACTION BALANCER

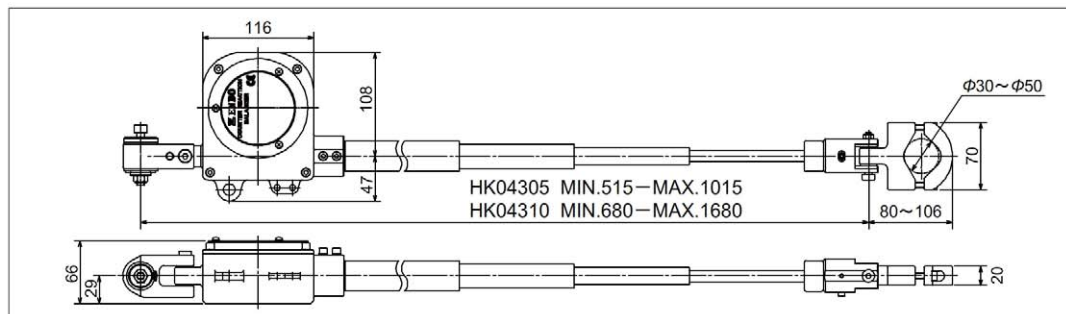

We added reaction force absorption mechanism to the balancer.

- A combination of telescopic tubes and three fulcrums reduces the reaction force generated by working with power tools.
- Spring balancer function helps you to handling tools.
- Lever-style tension adjustment mechanism adopted.
- The fastening torque supports 40Nm and 150Nm.
- In addition to the reaction force absorption during the operation, it is also available for the following work environment:-
 - In diagonal argument or diagonal pulling operation
 - In case of dislike the rolling and swinging of the hanging tools by the balancer .
